God's Programming Book

Project-01 Hog

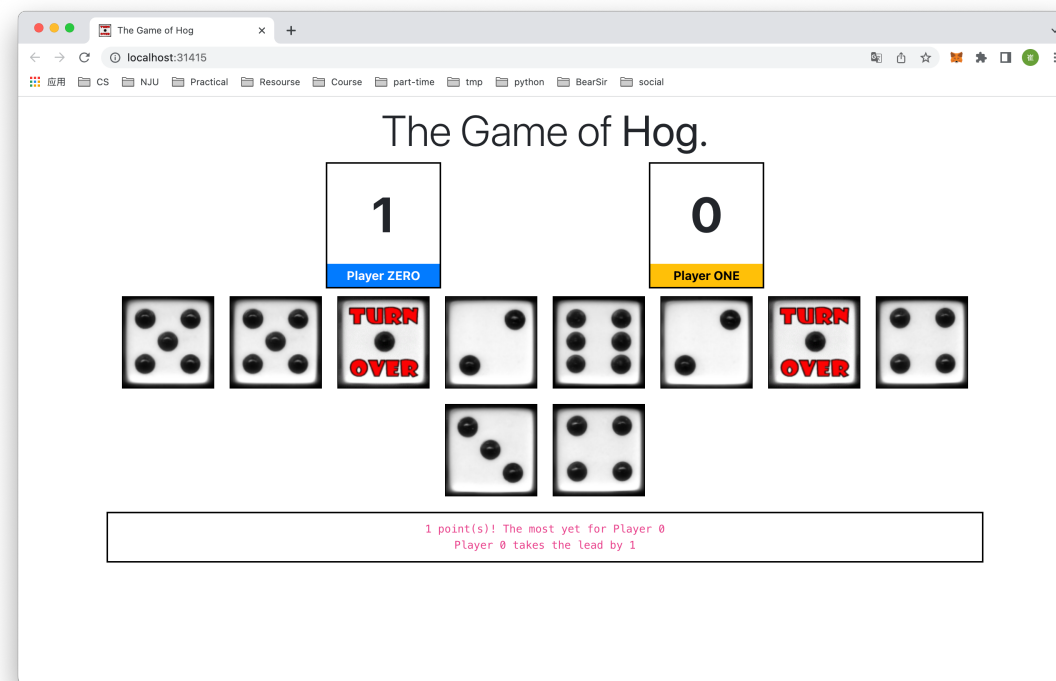

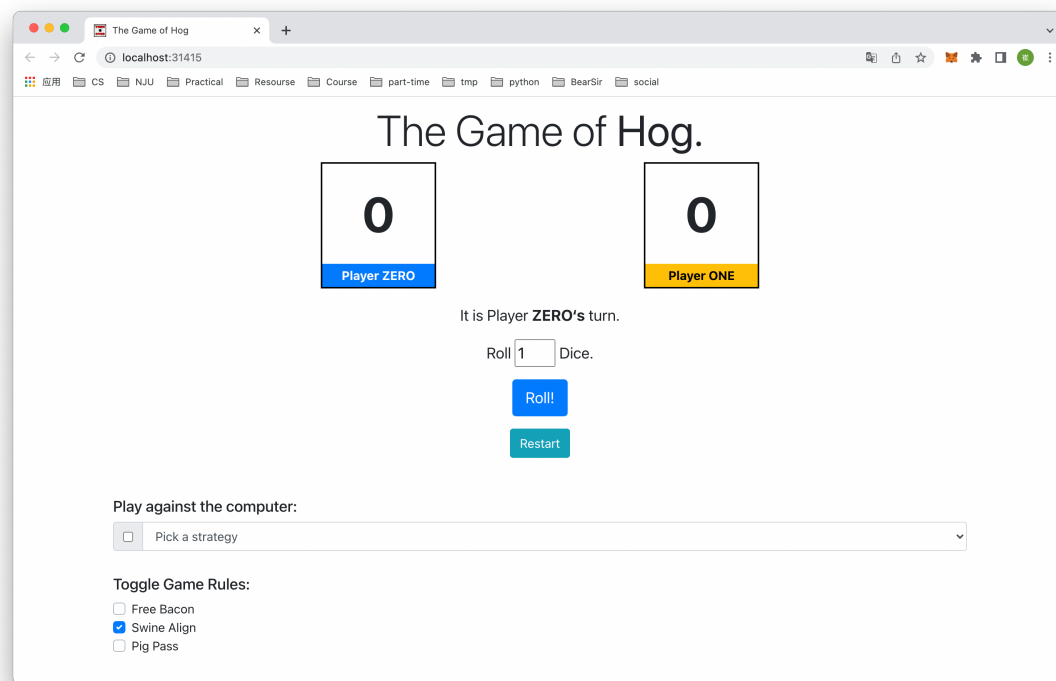

The Game of Hog

Project Adapted from cs61a of UC Berkeley

Goal

What will you have after the project?

A Dice-Rolling Game with Miscellaneous Rules and Strategies

Materials

What have you got before the project?

- Skeleton code of the project and an autograder ok
- A detailed handout covering everything about the project
- My version of solution

<https://github.com/JacyCui/sicp-proj01.git>

Requirements

What do you need to finished this project?

- Functions
 - Expressions
 - Names, Assignment, and User-Defined Functions
 - Environment Diagrams
 - Defining Functions

What do you need to finished this project?

- Control
 - Print and None
 - Multiple Environments
 - Miscellaneous Python Features
 - Conditional Statements
 - Iteration

What do you need to finished this project?

- Higher-Order Functions
 - Designing Functions
 - Generalization
 - Functions as Arguments
 - Functions as Return Values
 - Lambda Expression
 - Return Statements
 - Control Expressions

Tips

What you should keep in mind?

- Always figure out what you need to do before writing codes.
- Keep it simple and elegant.
 - Normally no more than 20 lines for each problem.
- Be creative and show your talent in the last optional problem.

Thanks for Listening
